INSURANCE DEPARTMENT

Oceanic Surveyors (Pvt) Ltd. (OSPL) is committed to delivering independent, reliable, and professional insurance surveying, loss adjusting, and claims management services across Pakistan. Our experienced team possesses extensive practical knowledge of handling a wide range of insurance claims, from routine losses to complex, high-value incidents across the marine, cargo, property, engineering, and liability sectors.

Our dedicated team of qualified loss adjusters, marine surveyors, multi-disciplinary engineers, and technical specialists provides prompt and impartial assessments, ensuring that every assignment is handled with professionalism, technical competence, and strict adherence to industry standards. With nationwide operational coverage, OSPL has the capability and resources to manage multiple concurrent assignments while maintaining the highest standards of quality and reporting.

We understand that every claim has a direct impact on our clients' business operations. Therefore, we focus on delivering accurate investigations, timely reporting, transparent communication, and practical recommendations that enable insurers, reinsurers, brokers, P&I Clubs, and corporate clients to make informed decisions with confidence.

Our reputation has been built on professionalism, integrity, independence, technical excellence, and customer satisfaction. At OSPL, we believe that long-term relationships are founded on trust, responsiveness, and consistently delivering value-added services. These principles have established OSPL as one of Pakistan's leading independent marine and insurance surveying organizations.

OUR EXPERTISE

OSPL specializes in the assessment, adjustment, and management of a broad spectrum of insurance and technical risks across diverse industries. Our core areas of expertise include Construction and Erection All Risks (CAR/EAR) with Advance Loss of Profits (ALOP) / Delay in Start-Up (DSU), Contractors' Plant and Machinery (CPM), Industrial All Risks (IAR), Machinery Breakdown, including Steam and Gas Turbines, Transformers, Generators, Boilers, and other critical industrial equipment, Business Interruption, Onshore Energy, Power Generation, Petrochemical and Process Industries, Product Liability, Property, Risk Surveys and DSU Monitoring, Fire and Engineering Losses, Marine & Nautical, Container, Oil & Gas, Aviation, Inland Transit, and Shipment Inspection Services.

Supported by a team of highly qualified surveyors, professional loss adjusters, marine specialists, engineers, and experienced management personnel, OSPL is equipped to provide prompt on-site response and technically sound services for both routine and complex assignments.

With extensive industry knowledge and practical experience, OSPL delivers independent, accurate, and timely assessments while maintaining the highest standards of professionalism, integrity, and technical excellence. Our commitment is to provide reliable solutions that facilitate efficient claims handling, effective risk management, and informed decision-making for insurers, reinsurers, brokers, corporate clients, and other stakeholders.

OUR DETAILED SERVICES

Engineering Surveys

OSPL provides expert engineering survey and loss adjustment services for losses of all sizes, from routine incidents to major and complex claims. Our expertise extends across onshore and offshore exploration, energy generation, renewable energy, textiles, pharmaceuticals, petrochemicals, refining, mining, manufacturing, and other associated industrial sectors. We deliver technically sound assessments, timely reporting, and practical risk management solutions.

Motor Surveys

OSPL's experienced motor surveyors possess extensive technical knowledge of the automotive industry, enabling them to efficiently assess all types of vehicle claims. We provide impartial damage evaluations, accurate loss assessments, and fair claim determinations while ensuring prompt and professional service.

Fire Surveys

OSPL delivers comprehensive fire investigation and loss adjustment services for both insurable and non-insurable losses. Our specialists conduct thorough cause-and-origin investigations, damage assessments, and claim evaluations, providing insurers and clients with timely reports, practical recommendations, and effective solutions to minimize claim costs and facilitate fair settlements.

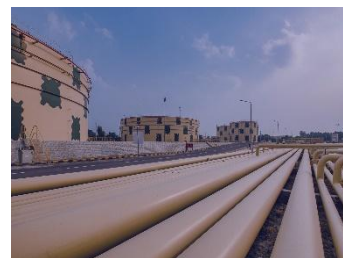

Marine & Nautical

OSPL's Marine & Nautical Division comprises Master Mariners, Marine Engineers, Naval Architects, and Senior Surveyors with extensive international experience in marine surveying and consultancy. We provide timely, independent, and technically competent services covering cargo, hull and machinery, P&I matters, condition surveys, risk assessments, and marine investigations.

Oil & Gas Surveys

OSPL offers comprehensive inspection, surveying, and loss adjustment services for the oil and gas industry, covering upstream, midstream, and downstream operations. Our technical expertise enables clients to effectively manage operational risks, minimize losses, and improve overall asset integrity and business resilience.

Shipment Inspections

OSPL conducts independent pre-shipment, loading, discharge, quantity, quality, and condition inspections to verify compliance with contractual and regulatory requirements. Our inspection services help minimize cargo losses, ensure product integrity, and provide confidence throughout the supply chain.

Inland Transit Surveys

OSPL provides independent surveys for cargo transported by road and rail, covering loading, transit, unloading, and storage operations. Our services identify the cause and extent of loss or damage, helping clients protect their interests, improve logistics performance, and reduce transit-related risks.

Aviation

OSPL provides specialized aviation surveying and loss adjustment services ranging from minor aircraft damage assessments to the investigation of major aviation incidents involving passenger and cargo aircraft. Our experienced professionals deliver prompt, independent, and technically sound evaluations to support insurers, operators, and aviation stakeholders.

Risk Surveys

We are dedicated to minimizing risk exposure and safeguarding businesses through expert risk assessment and mitigation strategies. Our expertise extends across SMEs, large corporations, insurance brokers, intermediaries, authorized representatives, agents, advisors, insurers/underwriters, government agencies, and industry bodies.

Our specialized team conducts comprehensive risk surveys to assess on-site physical risks, identify areas for improvement, and recommend proactive measures to enhance safety and reduce vulnerabilities. Each survey report provides detailed insights, pictorial evidence, and strategic recommendations to mitigate potential hazards.

By implementing our recommendations, businesses can significantly lower the likelihood of incidents, minimize operational disruptions, prevent liability claims, and enhance workforce safety. Additionally, our risk evaluations often contribute to a reduction in insurance premiums by improving overall risk profiles.

We also provide expert assessments on Estimated Maximum Loss (EML), Probable Maximum Loss (PML), and risk improvement strategies to ensure our clients receive a holistic risk management solution.
